

## **ABOA MARE CONSULTING**

Aboa Mare has long experience of customising training to its shipping clients. Now we have taken the initiative to offer consulting services.

Aboa Mare has a great number of experts in its networks. We can therefore help our clients in various kinds of assignments.

### **Our clients' needs may include e.g. the following:**

- analysis of the training needs of the shipping company (Training Needs Analysis)
- testing and commissioning of maritime simulators
- customised further training in accordance with the client's requirements
- establishment of new training centres
- STCW training consultancy
- improving the ability to use simulators in training
- training of instructors
- improvement of curricula in accordance with the STCW

### **References:**

- Maritime Training Adviser services for Wärtsilä in the Subic Bay Training Centre in the Philippines since 2004
- Dynamic Position operator training for Navis since 2009
- Azipod simulator training for ABB since 2010
- IBS (Integrated Bridge Systems) and STICS (Simulator Training in Critical Situations) training for several shipping companies since 1995
